

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

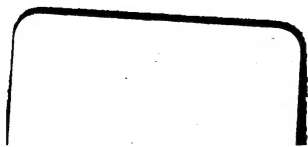

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. A SHIP FROM PORT PHILLIP

SIGNALS.

Explanation of General Signals.

When a vessel is first sighted, her descriptive flag is hoisted, and the direction from which she is approaching is indicated by hoisting a ball at the north or the south yard-arm as the case may be.

The place from which any vessel arrives is signalled as soon as it can be ascertained, and before she enters the port; the entrance of the vessel into port is denoted by hauling down the ball at the yard-arm; and her anchor-bearings by lowering the whole of the flags.

A ball hoisted at the mast-head indicates that the vessel last signalled is passing the port.

An immigrant ship is denoted by the numeral pendent being hoisted over the numerical flags. When troops are on board, the numeral pendent is hoisted under these flags. When a vessel returns to port, the white substitute is hoisted under the descriptive flag. When the Governor arrives, the Union Jack is hoisted at the semaphore mast-head.

Foreign National Flags on the semaphore mast-head denote the country of the ship signalled.

Mail Steamers.

When a ball is placed between the descriptive flag and the numerical flags, it denotes that the vessel signalled is a Mail Steamer.

The arrival of the San Francisco, F. & O., and other Companies' steamers is indicated by the respective Companies' flags being hoisted on the semaphore yard-arm.

When the P. & O. Mail Steamer arrives at Adelaide, the Company's flag, with a ball over it, is hoisted at the semaphore mast-head, and kept flying one hour; when she arrives at Melbourne, the same flag with a ball under is kept flying one hour. Her approach to Sydney is indicated by hoisting the Company's flag over the numerical flags denoting the station from which she is observed.

On the arrival of any of the Australasian Steam Navigation Company's steamers, a number is hoisted in addition to the house flag to designate the particular vessel arriving. The names of the Company's vessels with their numbers are as follows:—

13. Alexandra	11 Governor Blackall	21 Lady Young
14. Balclutha	12 Collaroy	22 Leichardt
15. Bee	13 Coonanbara	23 Queensland
16. Black Swan	14 Wentworth	24 Rangitira
17. Bolwarra	15 Bunyip	25 Ripple
18. Boomerang	16 Emu	26 Tinonee
19. Brisbane	17 Florence Irving	27 Victoria
20. City of Brisbane	18 Ipswich	28 Wonga Wonga
21. City of Adelaide	19 James Paterson	29 Yamba
22. City of Melbourne	20 Lady Bowen	32 Egmont

TIME BALL.

The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Observatory Mean Time, or 14h. 55m. 14s. Greenwich Mean Time.

Should any error occur in the time of dropping the Ball, it will immediately be raised half-mast high, and notice of the amount of error given the newspapers of the following day.

Latitude of the Observatory 33° 51' 41" S.
Longitude 150° 4m. 46s. E.

ECLIPSES-1876.

In the year 1876, there will be two Eclipses of the Sun, and two Eclipses of the Moon.

First.—A partial Eclipse of the Moon on the afternoon of March 10th, invisible in Australia.

Second.—An Annular Eclipse of the Sun on the morning of March 26th, invisible in Australia.

Third.—A partial Eclipse of the Moon on the morning of September 4th, partly visible in Australia.

At Sydney the first contact with the Penumbra takes place at 4h. 52m. a.m. The first contact with the Shadow takes place at 6h. 20m. a.m., which is only two minutes before the moon sets.

Fourth.—A total Eclipse of the Sun on the morning of September 18th, visible in Australia, with the exception of the western part.

At Sydney the Phases will take place as follows :—

	h.	m.	s.	
First contact.....	6	23	45	a.m. }
Greatest obscuration	7	12	0	„ } Sydney Mean Time.
Last contact.....	8	3	39	„ }

Magnitude 0.83 times the Sun's diameter. Angle from the North point of first contact 17 degrees towards the West. Angle of last contact 81 degrees towards the East. Angle from vertex of first contact 108 degrees towards the left. At the time of greatest obscuration one-third of the Sun's diameter will be covered.

TIDE TABLE FOR AUSTRALIA.

In the following table the Moon's Age is reckoned to noon each day.

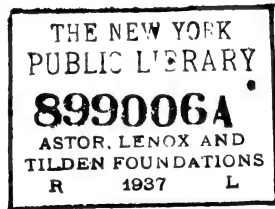

The corrections are for the hours.

The corrections must be adjusted at New and Full Moon.

There are two days in every month, during the twenty four hours of which there can be only one tide, morning or afternoon, as the case may be.

A correction of more than twelve hours produces an afternoon tide till it becomes otherwise by exceeding twenty-four hours, or a re-adjustment.

GARDENERS' CALENDAR.

Calendar of Culture for the Middle District.

JANUARY.—**KITCHEN GARDEN.**—Plant cabbage, celery, potatoe, artichoke, and other tubers. Sow turnips, spinach, and French beans. For late crops: peas, lettuce, radish, pumpkins, melons, cucumbers. **FLOWER GARDEN.**—Weed and water well. Dahlias can be planted. Dig up and store bulbs as soon as the leaves are withered. Stake, prune, and tie up early planted dahlias; thin out superfluous flower buds. Protect from the mid-day sun. Water when necessary. **ORCHARD.**—Ground should be loosened at surface, but avoid deep digging. Thin superfluous fruit. **VINEYARD.**—Continue summer pruning; remove useless shoots; destroy weeds. Tie up the bearing branches. Protect fruit from birds by netting, bagging, or such other means as may suggest itself. **FIELD.**—Break up land for wheat. Sow barley for green crop on rich land: Swedish turnip, mangel wurzel, sorghum. Dig the early crop of potatoes if ripe, for if left in the ground they will rot.

FEBRUARY.—**KITCHEN GARDEN.**—Plant and sow nearly the same as last month; transplant salads, onions, carrots. Asparagus beds to be kept clean. Cucumber beds to be watered and shaded if necessary. **ORCHARD.**—Weed and loosen soil. Thin out useless shoots from vines, in order to admit sun and air to the fruit. **FLOWER GARDEN.**—Plant late dahlias, and annual flowering plants to be carefully watched. **FIELD.**—Sow Cape barley, turnips (all sorts), beet, mangolds, &c. Ploughing should be proceeded with to prepare land for wheat and hay crops.

MARCH.—**KITCHEN GARDEN.**—Plant and sow according to season nearly the same as last month, with the exception of pumpkins, melons, and cucumbers for winter crops. Prepare ground for winter crops. **ORCHARD.**—Weed and loosen soil. Prune and thin orange trees. **FLOWER GARDEN.**—Plant late annuals and dahlias for succession: dahlias to be staked and attended to. Commence planting bulbs. Dig up and store lilies of all kinds. **FIELD.**—Plant potatoes early this month. Sow wheat, mangel wurzel; if the weather is hot and dry, end of the month preferred. Sow barley for green crops, turnips, &c. Small kinds of maize may be still sown. Collect seeds of sorghum and other millets. Cut and house tobacco.

APRIL.—**KITCHEN GARDEN.**—For early crops sow peas, cabbage, lettuce, radish, carrots, turnips, parsnips, parsley, celery, mustard—herbs of all sorts. Sow for succession cauliflower and broccoli. Collect and store pumpkins. Dress potatoe beds. Sow Windsor beans. Plant cabbage, cauliflower, rhubarb, and asparagus—strawberry beds should be attended to and new beds planted. **ORCHARD.**—Weed and loosen soil. Avoid deep digging until next month. Commence planting orange, loquat, and other evergreens. **FLOWER GARDEN.**—Remove rubbish. Season for planting bulbous roots which require dry ground. Tie up and stake chrysanthemums; prune geraniums; repot and start fuchsias; camellias should be placed in a cool dry situation for flowering. Commence planting herbaceous plants of all kinds. **FIELD.**—Sow wheat, barley, oats, peas, broad beans, clover, lucerne, all kinds of grass seed for pasture, fodder, or hay. Harvest sorghum and other millets; preserve the stalks.

MAY.—**KITCHEN GARDEN.**—Planting and sowing as in last month. Transplant cabbages, cauliflowers, &c. Carrots and potatoes to be stored. Sow Windsor beans. **ORCHARD.**—Prune orange trees; plant orange, loquat, and other evergreen trees, as well as deciduous trees of all kinds. Commence manuring; stone

fruit trees to be well manured; for these trees, bone dust and guano have been found profitable. **FLOWER GARDEN.**—Tie up and stake chrysanthemums; root prune geraniums. Place camellias in a cool situation for flowering. Plant hyacinths, &c., as in April. Lilies and such like bulbs to be taken up and kept dry. Plant flowering shrubs and herbaceous plants of all kinds. Sow hardy annuals of all sorts. **FIELD.**—Sow wheat, barley, &c.

JUNE.—**KITCHEN GARDEN.**—Transplant as in last month, with strawberries, artichokes, onions, &c. Sow peas, broad beans, salad, cabbage, broccoli, &c. Earth up peas and beans, if forward. Trench and manure. **ORCHARD.**—Transplant all kinds of evergreen and deciduous fruit trees. This is the best month for pruning all deciduous trees; deep digging, trenching and manuring should also be completed this month. **FLOWER GARDEN.**—Tie up and stake chrysanthemums. Root prune geraniums. Re-pot and start fuchsias. Plant hyacinths as in April and May. **FIELD.**—Sow barley, wheat, oats, beans, peas, lucerne, clover, &c., &c.—this often proves the best month for sowing these crops as the autumn is sometimes very dry.

JULY.—**KITCHEN GARDEN.**—Sow peas, cabbage, lettuce, radish, carrots, turnips, parsnips, celery, parsley, mustard, cress, and herbs of all sorts. Plant cabbage and onions. Sow for succession cauliflower and broccoli. **ORCHARD.**—Gather late apples and pears. Transplant all kinds of evergreen and deciduous fruit trees, strawberries, &c.—finish deep digging. **FLOWER GARDEN.**—Plant and remove shrubs, roses, &c. Re-pot fuchsias for early flowering. Plant hyacinths, anemones, ranunculus, tulips, and all Cape bulbs. Plant flowering shrubs, and herbaceous plants. Dig up and store dahlia roots. **FIELD.**—Plough for tobacco and maize. Wheat, barley, and oats may be sown. Good crops may be looked for if the month be cold and wet, followed by a dry spring. April and May are the proper months for sowing the above; the later you sow the more seed you require. Field peas and beans may still be sown. Sow clover, lucerne, and all kinds of grass seeds for pastures should the weather admit of it. Winter ploughing should never be neglected.

AUGUST.—**KITCHEN GARDEN.**—Sow peas and beans for late crop; also cabbage, lettuce, onions, cauliflowers, leeks, eschallots, rhubarb, and herbs. Clear and loosen soil. Sow as last month with addition of spring vegetables in general. At end of this month sow pumpkins, melons, cucumbers, vegetable marrow, and plant potatoes. **ORCHARD.**—Plant every description of hardy fruit trees, as apple, pear, quince, almond, peach, cherry, apricot, orange, &c. Finish pruning and manuring all kinds of deciduous fruit trees, if not previously done. **FLOWER GARDEN.**—Transplant lilies, anemones, flowering shrubs, roses, magnolias, camellias, carnations, primroses, &c. **FIELD.**—Prepare land for maize and summer growing crops. Sow wheat, barley and oats, in late districts. Sow tobacco in seed beds, and protect from frost. Sow sorghum saccharatum in seed beds for planting out; transplant when six inches high, in rows three feet apart; let the plants be a foot from each other. Potatoes as before.

SEPTEMBER.—**KITCHEN GARDEN.**—Sow peas, French beans, cabbage, lettuce, carrots, parsnips, turnips, broccoli, radish, spinach, tomatoes, capsicums, &c. Plant potatoes, cabbage, lettuce, artichokes, celery, parsley, and herbs. Sow melons, cucumbers, pumpkins, &c. Keep down weeds, pulverise the soil, and irrigate. **ORCHARD.**—Orange, lemon, and almost all evergreen fruit trees may be transplanted; do not keep them longer out of the ground than necessary. In warm situations, cherries, early plums, loquats, and strawberries ripen about the end of this month. **FLOWER GARDEN.**—Continue planting lilies, crinums, and other bulbs. Flowering shrubs may still be transplanted with care. Hyacinths, tulips, anemones, and ranunculuses bloom this month; protect them from too much heat

at mid-day, as also in boisterous weather. Plant dahlias in good rich soil. Sow balsams and tender annuals in a warm sheltered situation. Weed and water. VINEYARD.—Destroy caterpillars, &c., and keep the land free from weeds. FIELD.—Sow maize, millet, and pumpkins; plant potatoes and tobacco. Sorghum can be sown either in beds or the field; the seed is the better for being steeped in water a few hours previous to sowing. Sow cotton seeds, three in a hole; let the holes be four feet apart; when the plants are about six inches high, take out the two weakest, and leave only one strong one in each hole. Keep down weeds, and loosen surface of the soil. Irrigation must be attended to should rain be withheld.

OCTOBER.—KITCHEN GARDEN.—Sow peas, cabbage, lettuce, onion, radish, carrots, turnips, parsnips, pumpkins, melons, cucumbers, parsley, celery, mustard, cress, and herbs; Cape gooseberries, tomatoes, capsicums, &c. Plant cabbage, potatoes, artichokes, arrowroot, ginger, turmeric, yams, &c. Weed and water. ORCHARD.—Weed and keep surface soil loosened; thin out superfluous fruit from peach, nectarine, apricot, plum, cherry, and other summer fruits. Commence gathering cherries, gooseberries, currants, and early plums, as they ripen, and protect them from birds. Commence to prune and thin out orange trees. FLOWER GARDEN.—Weed and water well. Plant out annuals, &c. Plant dahlias; dig up and store in a dry place tulips, hyacinths, and other bulbs, so soon as the leaves are withered, to prevent rotting or unseasonable growth; this is the best month for sowing balsams and all kinds of tender annuals. VINEYARD.—Loosen surface soil, keep down weeds, replace stakes when required, and destroy caterpillars and other insects. FIELD.—Sow maize, millet, pumpkins, water and other melons; plant potatoes. Sow tobacco in seed beds, and protect from frost with boughs, &c.; water if necessary. Sow sorghum saccharatum in seed beds, for after-planting—for directions, see August. Sow Swedish turnips, carrots, beet, mangel wurzel, &c. Top-dress pastures. Cotton must be kept free from weeds, surface soil loosened, and the superfluous shoots thinned out.

NOVEMBER.—KITCHEN GARDEN.—In every respect the same as last month. Weed and water well, should rain not fall. ORCHARD.—The directions detailed last month apply in every respect to this. FLOWER GARDEN.—Plant geraniums, verbenas, fuchsias, and budding plants generally. Continue storing tulips, hyacinths, and ranunculus as they ripen forward. Dahlias should be staked, and buds thinned. Continue planting shrubs, but from pots only. VINEYARD.—Loosen surface soil, keep down weeds, replace stakes, destroy insects. FIELD.—Continue all operations as during last month. The following is a good and cheap manure for top dressing pasture:—Two cart loads wood ashes, six of surfacing of forest or scrub, and 1½ cwt. of Peruvian guano per acre, well mixed together and spread over the face of the pasture.

DECEMBER.—KITCHEN GARDEN.—Sow for late crops, peas, cauliflowers, and broccoli; also, cabbage, radish, turnips, &c. Plant tomato, capsicum, and generally as last month; watering should be copious to be of any use. ORCHARD.—Continue to thin out superfluous fruit; vines should be carefully tied, and all unnecessary and straggling shoots removed. Insects require to be looked after most particularly this month. Weeds must be kept down, and the surface of the soil loosened. FLOWER GARDEN.—Continue to plant all kinds of budding plants. Attend carefully to staking dahlias and removing superfluous buds. All kinds of shrubs may be planted out still but from pots only. Weeds require to be kept down. FIELD.—For late crops, maize, sorghum, millet; pumpkins and melons may still be sown; also, tobacco. The hay harvest should be completed this month. Cotton plants should be carefully attended to, and all superfluous shoots removed. Weeds kept down, and the scarifier kept constantly at work to keep surface of soil open.

Postage on Letters, Books, Newspapers, &c.

LETTERS.

I.—TOWN LETTERS.

For delivery within the limits of the city or towns in which letters are posted :—

Not exceeding $\frac{1}{2}$ oz	1 penny.
Exceeding $\frac{1}{2}$ oz., but not exceeding 1 oz.	2 pence.

and so on, increasing 1 penny for every additional $\frac{1}{2}$ ounce or fraction of $\frac{1}{2}$ an ounce.

Sydney and its Suburbs.

The Town Rate of Postage, viz., 1 penny the $\frac{1}{2}$ ounce, is levied upon all correspondence posted in the City of Sydney, for delivery within those Suburban Municipalities any portion of which does not exceed ten (10) miles from the City of Sydney, or for delivery at any Post Office not exceeding that distance from the City Boundary, and also upon correspondence posted in any of such Boroughs or Post Offices for the said City, or for any of such Boroughs or Post Offices.

The following is a list of the Municipalities and Post Offices, the distances of which do not exceed ten (10) miles from the City boundary, viz :—

MUNICIPALITIES.

Alexandria, Ashfield, Balmain, Camperdown, Darlingtown, East St. Leonards, Five Dock, Glebe, Hunter's Hill, Leichhardt, Marrickville, Macdonald Town, Newtown, North Willoughby, Paddington, Petersham, Randwick, Redfern, Ryde, St. Leonards, St. Peter's, Victoria, Waterloo, Waverley, West Botany, Woollahra.

POST OFFICES.

Anndale, Ashfield, Balmain, Biloela, Botany, Bourke-street, Burwood, Camperdown, Canterbury, Coogee, Enfield, Five Dock, Gannon's Forest, Gladesville, Glebe, Hunter's Hill, Haslem's Creek, Kogarah, Lane Cove, Longbottom (Concord), Manly, Marrickville, Macdonald Town, Newtown, North Willoughby, Paddington, Petersham, Pyrmont, Randwick, Redfern, Ryde, St. Leonards, St. Mark's, St. Peter's, Tempe, Watson's Bay, Waverley, Woollahra.

II.—INLAND LETTERS.

Not exceeding $\frac{1}{2}$ oz.	2 pence,
Exceeding $\frac{1}{2}$ oz., but not exceeding 1 oz.	4 pence,

and so on, increasing 2 pence for every additional $\frac{1}{2}$ ounce or fraction of $\frac{1}{2}$ an ounce.

III.—INTERCOLONIAL AND SOUTH SEA ISLAND LETTERS.

Fiji Islands, New Zealand, Queensland, South Australia, Tasmania, Victoria, Western Australia, 2 pence per half-ounce.

IV.—LETTERS TO BRITISH COLONIES AND FOREIGN COUNTRIES.

(*Excepting Intercolonial, and in the special cases mentioned in Table A of Post Office Guide.*)

Not exceeding $\frac{1}{2}$ oz.	6 pence.
---	----------

and so on increasing 6 pence for every additional half ounce or fraction of half an ounce.

V.—LETTERS TO THE UNITED KINGDOM.

		Not exceeding half-ounce.	Every additional half-ounce.
Via San Francisco, and by ship direct...	...	0 6	0 6
" Torres Straits and Southampton	0 6	0 6
" Torres Straits and Brindisi	0 9	0 9
* " Galle and Southampton	0 6	0 6
" Galle and Brindisi	0 9	0 9

VI.—PREPAYMENT OF POSTAGE.

The postage upon all letters, packets, and newspapers, must be prepaid by affixing stamps thereon. But where any Postmaster shall not have stamps of the requisite value for sale, the postage may be paid in coin, and shall be acknowledged by such Postmaster on the face or cover of the letter, packet, or newspaper.

Town and country letters or packets bearing one postage stamp will be regularly transmitted : but double the amount of postage omitted to be paid, will be charged on delivery.

Letters and packets addressed to places beyond the Colony, posted wholly unpaid (except to places, *vide* Table A of the Post Office Guide), or not fully prepaid, will be returned to the senders,* except letters and packets addressed to the United Kingdom, *Victoria, Queensland, New Zealand, South Australia, Tasmania, Fiji Islands, United States, and Honolulu*, which will be forwarded if a single rate be prepaid ; the deficient postage, together with a fine equal to a single rate, being charged on delivery.

VII.—RE-DIRECTED LETTERS, &c.

Letters and packets (but not newspapers), on being re-directed, are chargeable with a new and distinct rate of postage.

Letters and packets may be re-directed to the United Kingdom, New Zealand, Victoria, South Australia, Western Australia, Queensland, Fiji Islands, United States, and Honolulu, without pre-payment of additional postage, which will, however, except in the cases of South Australia and Tasmania, be charged on delivery.

VIII.—REGISTRATION OF LETTERS.

Any person can have a letter registered by affixing on it, by means of the proper stamps, the amount of the registration fee, in addition to the proper postage, and presenting it at a Post Office during office hours, when a receipt for the same will be given, and every precaution will be adopted to ensure its safe delivery by entering it on the Letter Bills, and obtaining a receipt for the same on delivery. As the Post Office, however, is not responsible for the loss of *any* letter, whether registered or otherwise ; parties sending Bank notes or drafts are advised to take the number and particulars, and to cut such notes or drafts in halves, and to send them by different posts.

The registration fee to all places not mentioned in Table A of the Post Office Guide, is 4d.

* Letters, &c., detained for postage are, in cases where the senders' names are not ascertainable, entered on a list and exposed to view outside the General Post Office, and are there kept for 30 days (unless the deficient postage is previously paid). Notice of the detention and the amount of postage required is immediately forwarded to the parties to whom the letters are addressed.

Should any letter, containing or appearing to contain coin or other valuables, not be registered by the sender, this will be done by the Department (except letters for the Continent of Europe), the Registration fee (or in the case of letters to or from the United Kingdom a double Registration fee) being charged on delivery.

IX.—LATE LETTERS.

Late letters, intended for despatch from the General Post Office by the Western and Southern Mails, will be received until fifteen minutes after the hour fixed to close mails, on payment of a late fee of 3d., in addition to the postage.

Late letters, intended for despatch by the Intercolonial Mails, will be received for a quarter of an hour after the time fixed for the closing of the mails; but such letters must each bear an extra three-penny stamp as a late fee, or they will not be forwarded.

Letters placed on board steamers or sailing vessels for any of the Australasian Colonies after the mails have closed at the General Post Office, should bear the ordinary postage rate, with a late fee of 3d., and if not fully prepaid, the deficiency will be charged on delivery.

At Country Post Offices, late letters can be posted to within a quarter of an hour of the time of despatch of the mails, on payment of a late fee of 3d. In certain cases letters can also be forwarded if posted (with a late fee of 3d.), between the hours of 9.30 and 9.45 p.m. All late fees must be paid by stamps.

X.—LETTERS CONTAINING GOLD TRANSMITTED WITHIN THE COLONY.

Not exceeding 1 oz. (<i>avoirdupois weight</i>).....	a. d.
And so on, increasing 4d. for every additional oz. or fraction of an oz.	0 4

GENERAL ARRANGEMENTS.

The City Letter Carriers deliver three times a day, and Suburban Carriers twice; the hours of closing and despatch are stated below, viz.:—

	<i>Post closes at General Post Office.</i>	<i>Letter Carriers leave General Post Office.</i>
CITY OF SYDNEY ...	8.30 a.m., 12.30 and 3.30 p.m.	9 a.m., 1 and 4 p.m.
SUBURBS ...	8.30 a.m. and 1.30 p.m.	9 a.m. and 2 p.m.
(Balmain, Camperdown, Glebe, Newtown, Paddington, Redfern, St. Leonards, St. Mark's, and Woollahra.)		
<i>COUNTRY DISTRICTS:—</i>	<i>Mails close at General Post Office.</i>	
Western	Daily, * 8.30 a.m. and 4 p.m.	
Southern	" * 9 a.m. and 4 p.m.	
Northern	" by Grafton steamers at 8 p.m., and per Hunter River steamers at 9.30 p.m.	

* Vide Table of Departures of Mails.

Book Packets and samples intended for despatch to the Country Districts must be posted as follows, viz.:—

Western and Southern Districts ..	8 A.M.	4 P.M.
Northern		6 P.M.

Newspapers for West and South must be posted by 7.30 A.M. and 3 P.M., and for the North by 6 P.M.

Mails for despatch by steamers are, as a general rule, closed half-an-hour previous to the advertised time of the vessel's departure; but in the event of steamers leaving at 9 a.m. the Mails close at 8.

Mails are made up for despatch by sailing vessels twice a day, viz.—At noon and at 6 p.m.

The Letter Delivery Office is open from 9 A.M. to 9 P.M. The Dead Letter Office is open from 10 A.M. to 4 P.M., Saturdays excepted, when it closes at 1 P.M. The Inquiry Office and Postage Stamps Sale Office are open from 9 A.M. to 5 P.M. The Registered Letter Office is open from 10 A.M. to 3.30 P.M., and from 9 A.M. on the day of the departure of the English Mail, *via* San Francisco. Letters for registration intended to be forwarded by Mails to be despatched between the hours mentioned (the Monthly English Mails excepted), must be posted half-an-hour before the time appointed for the closing of such Mails. The Newspaper Delivery Office is open from 9 a.m. to 4 p.m.

The following arrangement will be observed on all public holidays, viz.—

The General Post Office will be open from 9 a.m. to 10 a.m.

The morning delivery only will be effected by Letter Carriers.

The Country mails, usually despatched in the afternoon and evening, also the Coastwise, Intercolonial, and Foreign mails, will close at 9 a.m. unless otherwise specially intimated.

The Iron Pillar Receivers and Receivers at Suburban Post Offices will only be cleared at the first usual hour on such day.

Private letter-boxes will be provided for merchants and others, and their letters delivered at a separate window, upon payment of one guinea per annum, or ten shillings and sixpence per half-year *each*. All payments to date from 1st January or 1st July.

All letters received in this Colony from *any* part beyond the seas (except the Australasian Colonies and South Sea Islands) that have not been regularly posted at the place of despatch, will be charged with the Colonial ship rates of postage, 6d. per half ounce.

No charge whatever is made on letters received in this Colony *from* places beyond the Colony, except in cases of insufficiently stamped or re-directed letters, provided they have been duly posted, and prepaid at place of despatch.

Should information be at any time required from a Country Postmaster, *in writing*, the public are recommended to enclose a Stamped Directed Envelope for reply, as the Country Postmasters cannot be expected to bear this expense themselves.

The public are requested to note that addresses and changes of addresses will be recorded and attended to in this Office for 12 months only—that period being considered to afford ample time to correspondents to address their letters properly.

BOOK PACKET REGULATIONS.

1. A book packet may contain any number of separate books or other publications (including printed or lithographed letters, bank pass books, returns, cheques, deeds, affidavits, policies of assurance, depositions, powers of attorney), photographs (when not on glass or in cases containing glass or any like substance), drawings, prints or maps, and any quantity of paper, or any other substance in ordinary use for writing or printing upon; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed, whether such binding, &c., be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, pens or pencils in the case of pocket books, &c., and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding, rollers, &c. must not be sent as a separate packet.

Circulars.—i. e., letters which are intended for transmission in identical terms to several persons, and the whole or the greater part of which is printed, engraved, or lithographed,—may also be sent by book post.

2. A book packet may not contain any letter, or communication of the nature of a letter* (whether separate or otherwise), unless it be a circular-letter or be wholly printed; nor any enclosure sealed or in any way closed against inspection; nor any other enclosure not allowed by Rule 1. If this rule be infringed, the entire package is charged as a letter.†

* Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

† It is the duty of Postmasters, whenever they have ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine book packets posted at, or passing through their office.

3. A book packet may be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, or sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of the contents being easily withdrawn for examination†; otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string, Postmasters being authorized to cut the string in such cases, although if they do so they must again tie up the packet.

4. No book packet may be above sixteen ozs. in weight, nor above two feet in length, one foot in width, or one foot in depth, unless it be sent to or from one of the Government Offices. The limit of weight is not the same to all countries. For particulars see Table A of Postal Guide.

5. When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, book packets may be kept back till the next despatch or delivery.

6. Any packet posted in fraud or violation of the Post Office Statute or Regulations, or of any Act of the Customs, or containing any letter or epistolary communication or having less than one rate prepaid as a packet not exceeding two ounces in weight, or which shall have no postage, or less than one rate of postage, in accordance with the rate chargeable thereon, or shall contain or have on the outside thereof, any profane, obscene, or libellous address, signature, picture, or thing, must be sent to the Dead Letter Office forthwith.

7. Packets containing returns of births, baptisms, marriages, and deaths, may be transmitted unstamped, the postage being paid upon delivery, if marked as containing such returns only, and signed by the Clergyman or the District Registrar transmitting them.

PATTERN AND SAMPLE POST REGULATIONS.

1. There is a Pattern and Sample Post to such colonies and foreign countries as are marked in Table A of Postal Guide, with the letter "P"; but it is restricted to *bona fide trade patterns or samples of merchandise*.§ Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, are not admissible.

2. Patterns or samples, when practicable, must be sent in covers open at the ends and in such a manner as to be easy of examination.* But samples of seeds, drugs, and such like articles, which cannot be sent in covers of this kind (but such

† In order to secure the return of book packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside*; thus, "From _____ of _____."

§ As considerable misunderstanding seems to prevail in reference to the articles that can be forwarded through the post as patterns or samples of merchandise, it is necessary to explain that the regulations are not intended to provide for the public a kind of parcel delivery throughout the Colony (an idea which some persons seem to have formed), but merely to enable business houses to have facilities for the transmission of samples, having, so far as these houses are concerned, no intrinsic value beyond their use as samples. For the purpose of a pattern, in most cases a *small piece* of an article is all that is required to be transmitted. The *complete* article having a value of its own, would not in such case come under the class of patterns or samples only. Packets open at the ends with sample rates of postage containing any *complete* article, as a child's dress, a pair of stockings, a clergyman's surplice, &c., will be charged on delivery with double the deficiency at the *letter rate* of postage.

* In order to secure the return of pattern packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside*; thus, "From _____ of _____."

articles only), may be posted enclosed in boxes, or in bags of linen or other material fastened in such a manner that they may be readily opened; or, in the case of samples of seeds, &c., in bags entirely closed, provided such closed bags are transparent, so as to enable the Officers of the Post Office readily to satisfy themselves as to the nature of the contents.

3. There must be no writing or printing upon or in any packet except the address of the person for whom it is intended, the address of the sender, a trade mark or number, and the price of the articles.

4. Packets containing samples or trade patterns above sixteen ozs. in weight, or exceeding two feet in length, one foot in width, or one foot in depth (unless it be sent to or from one of the Government Offices), or reasonably suspected to contain articles likely to injure the other portions of the mail, or the person of any officer or servant of the Post Office, may be refused. The limit of weight is not the same to all countries. For particulars see Table A of Postal Guide.

5. Packets containing seeds, not sent as samples, may be forwarded as inland packets only; such packets must not, however, exceed eight ounces in weight, and must be packed in the manner described in Regulation 2.

6. Any packet posted in fraud or violation of the Post Office Statute or Regulations, or of any Act of the Customs, or containing any letter or epistolary communication, or having less than one rate prepaid as a packet not exceeding two ounces in weight, or which shall have no postage, or less than one rate of postage, in accordance with the rate chargeable thereon, or shall contain or have on the outside thereof any profane, obscene, or libellous address, signature, picture, or thing, must be sent to the Dead Letter Office forthwith.

INLAND CARD POST.

Post Cards, whether Official or Private, being each impressed with a penny stamp, may be transmitted between places in the Colony of New South Wales, under the following conditions and regulations:—

1. The front or stamped side of the card to be for the address only, in addition to the words "Post Card." There must be nothing else written, printed, or otherwise impressed on the front side of the card, nor must there be any writing or printing across the stamp. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or in any other respect altered. Adhesive stamps will not be accepted in payment of postage. If any of these conditions be infringed, the cards will be charged 2d. on delivery.

2. No card other than those issued by the Government, or a private card impressed with a penny stamp, under the special authority of the Postmaster General, will pass under a penny stamp, if it bear on it a written communication of the nature of a letter.

3. Should a Post Card be observed to bear upon it anything of an obscene, libellous, or otherwise obviously objectionable nature, it will not be delivered.

4. When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, Post Cards may be kept back until the next despatch or delivery.

Official Cards will be sold in packets of a dozen for 1s. per packet, and will not be sold singly at Post Offices.

For information as to the conditions under which printed cards may be impressed, application can be made to the Secretary to the Post Office.

NEWSPAPERS.

1. Newspapers printed and posted within the Colony are transmitted free of charge, excepting Newspapers posted at any Post Office or Receiver in Sydney, for delivery within the boundaries of the City, and newspapers posted after seven days from the date of publication, which are subject to a charge of one penny each.

2. Newspapers received from beyond the Colony, *stitched in monthly parts*, are, when re-posted, subjected to the charge of one penny for every number contained therein.

3. Newspapers for the United Kingdom are chargeable with one penny each, if intended for transmission *via* San Francisco, *via* Southampton, or *via* Torres Straits, and if intended for transmission *via* Brindisi, with three-pence each, provided the newspaper does not exceed 5 ozs. in weight; an extra rate of one penny for 4 ozs. is charged, by this route, for every additional 4 ozs. or fraction of 4 ozs.

4. Newspapers for British Colonies and Foreign Countries, sent through the United Kingdom, &c., are subject to the rates of postage shown in Table A of Postal Guide.

5. Newspapers for the neighbouring Colonies, and for all places which are not liable to postage under Table A of the Postal Guide, are transmitted free of charge and all newspapers from such places received in the Colony are delivered without charge.

6. Newspapers received in the mails from France, are charged one penny each on delivery.

7. The postage chargeable on newspapers must be paid by affixing stamps of sufficient value, and no newspaper will be forwarded unless it bears the full amount of postage.

8. Newspapers, on being re-directed by Postmasters, are not liable to additional postage.

9. Newspapers may be posted at the General Post Office for Morning Mails up to 7.15 A.M.; and for despatch by Afternoon Mails, West and South, 3 P.M.—for the North, 6 P.M. For despatch by Intercolonial Mails, half an hour previous to the time fixed for posting letters.

POST OFFICE TELEGRAPHS.

REGISTRATION OF ABBREVIATED ADDRESSES.

1. On and after this date a register will be opened at the Central Telegraph Station for the registration of the full address at which telegrams reaching London from the Provinces or from abroad, and marked with an abbreviated or arbitrary address, are to be delivered.

2. The charge for registration will be one guinea per annum, payable in advance, and will become due on the 1st of August in each year. The payment made during the current year will cover the period to the 31st July, 1876.

3. For an address registered in London, the fee of one guinea should be remitted by means of a cheque on a London Bank, crossed "Bank of England," in favour of the Postmaster General or order, or by Post Office order payable at the Chief Office, London.

4. The Postmaster General, London, will not undertake the delivery of any telegrams at addresses which are not either full and complete, or which have not been registered at the General Post Office, or which cannot be traced in the Post Office London Directory, whether the record of the actual address has already been notified to the Post Office or not.

5. In the Provinces, and in Scotland and Ireland, the addressees of telegrams may have their addresses registered at the chief offices of the town in which they reside, upon payment at that office of the registration fee.

IN THE SUPREME COURT OF NEW SOUTH WALES.

Wednesday, the 22nd day of December, 1875.

REGULÆ GENERALES.

The following Rules are hereby established, for the despatch of business in the Supreme Court, during the year 1876 :—

TERMS, HOLIDAYS, SITTINGS, AND VACATIONS.

1. The Terms, Holidays, Vacations, and sittings of the Court shall be those mentioned in the Law Almanac.

ADDITIONAL DAYS FOR APPEALS, DEMURRERS, AND SPECIAL CASES.

2. Appeals in Equity and Insolvency, and Demurrers and Special Cases, may be heard on such additional days as two Judges shall appoint.

OTHER BUSINESS ON EQUITY APPEAL DAYS.

3. After the disposal of Equity Appeals, on any of the days appointed for that purpose, such other business will be taken as the Judges or any two of them may direct.

SITTINGS IN EQUITY.

4. The Primary Judge will sit, in and out of Term alike, on every Tuesday, Wednesday, and Friday:—except on the first Tuesday and Wednesday in Term, on Equity Appeal days, and during the Judge's absence on Circuit.

ECCLIESIASTICAL MATTERS.

5. On Wednesdays in Term, the Primary Judge will take only Ecclesiastical Matters which may (by 22 Vict. No. 14) be heard before one Judge. On Wednesdays out of Term, those matters will take precedence.

6. Ecclesiastical Motions and Matters, and applications to a Judge or the Court in Insolvency (Appeals excepted) whether in or out of Term, will be taken by the Primary Judge only.

FINES AND ESTREATS.

7. All Schedules of Fines, and Estreated Recognizances, shall be returnable on some Friday in Term, at 10 o'clock; to be then heard before the Primary Judge.

CHAMBER BUSINESS.

8. Chamber Business will ordinarily be taken on Tuesdays and Fridays, at 10 o'clock, in Term and out of Term alike: Provided that a Summons may be returnable on any other day by order of a Judge.

9. No Chamber application will be entertained on any day, in or out of Term (except in cases of emergency) after 1 o'clock.

SATURDAYS.

10. There will be no Sitting of the Court in Sydney (except for the trial of Prisoners, and except the last day of Term) on any Saturday. Provided that any Argument or Trial, not concluded on Friday, may be continued on Saturday, if the Court or Presiding Judge shall think fit.

SETTING DOWN CAUSES.

11. To the extent limited for each day as next mentioned, Causes shall be set down consecutively only. No more than four Causes shall be set down for any day for Trial by a Jury of four persons, nor more than two Causes for Trial by a Special Jury, or three Causes by a Common Jury: Provided that an additional number of Causes, not exceeding two, may be set down for any day, if the Prothonotary shall see fit.

12. For each day of the Sittings for Causes there shall be two separate Cause Lists, which will be taken respectively in the Banco and Jury Court: two Judges sitting for that purpose. And until both Lists have been filled,

in accordance with the preceding Rule, no Cause shall (except by leave of the Prothonotary, approved of in writing by a Judge) be set down in either List for any subsequent day.

JURIES OF TWELVE.

13. Provided that Causes for Trial by Juries of Twelve (whether Special or Common Jurors) shall be set down for such days only as the Prothonotary shall in each case direct.

CAUSES UNCONCLUDED DURING THE SITTINGS.

14. Any Cause, not concluded on the last day of the Sittings, may be continued on such day or days as the Presiding Judge shall think fit.

TRANSFERRING CAUSES.

15. Causes, on the List of either Court, may be transferred to the List of the other, by order of a Judge, for Trial on the day next but one following, or any later day. Provided that no such day shall be earlier than that for which the Cause was first entered.

REMANETS GENERALLY.

16. Remanets from any Sitting will have precedence over other Causes; and shall be set down by the Prothonotary, each according to its appropriate List, for the next Sitting.

CAUSES ON CIRCUIT.

17. Causes for Trial in the Circuit Courts, respectively, shall be entered for the days specified for that purpose in the Law Almanac.

CASES RESERVED ON CIRCUIT.

18. Special Cases reserved on Circuit, on any Criminal Trial, shall be set down for hearing in Sydney (unless a Judge shall otherwise order) on the first Friday of the next Sittings for Causes.

VACATIONS.

19. During the Vacations, Causes may be set down, and notices of Trial, and to admit or produce documents, may be given, and all Writs may be issued, executed, and returned; and all necessary proceedings may be taken for the purposes of an Appeal, or for obtaining or dissolving any Injunction. And Summonses in cases of emergency may be returnable in Chambers on any Friday.

20. During the Vacations no other business than that above specified will be taken.

21. From the commencement of the long Vacation to the 15th January, both days inclusive; and from the commencement of the short Vacation to the 17th July, both days inclusive, no pleading shall be filed or delivered without the leave of a Judge, nor shall Time run at Law or in Equity; but after the 17th January and 17th July, respectively, pleadings may during the Vacations be filed and delivered, and Time shall run both at Law and in Equity.

MOTIONS NISI FOR NEW TRIAL.

22. All Causes in which the usual Memorandum has been filed of a Motion Nisi for a New Trial, shall be entered in the order of filing: and be called on in that order on every day in Term until disposed of.

PARTIES NOT READY TO PROCEED.

23. Every case so called on, in which no Counsel shall move, shall (unless the Court extends the time) be struck out of the Paper—with leave to the adverse Party to sign Judgment. And the like, where a Rule Nisi has been granted, and the Moving Party is not prepared to proceed.

FILED MEMORANDUM NECESSARY.

24. A filed Memorandum shall in all cases be necessary, Under the Rules of the 19th August, 1861: but where the Cause shall have ended during the Term, or within four days preceding the Term, no Motion in pursuance of such Memorandum need be made earlier than the fourth day after the filing thereof.

RULES NISI FOR NEW TRIAL.

25. Every Rule Nisi for a New Trial shall be entered and called on in the order in which it was granted: and the Moving Party shall in all cases begin, and the Party showing cause follow—one Counsel having the reply.

PRECEDENCE OF BUSINESS.

26. Motions Nisi for New Trials will on every day except Friday have precedence of all other business. On *Fridays* Criminal and Crown cases will have precedence, and then Motions. On *Thursdays*, Demurrers will have precedence. On *Tuesdays*, Motions will have precedence: but by leave of the Court, Common Motions may be taken on any day.

ORDER OF BUSINESS GENERALLY.

27. On every day, subject to the preceding Rule, all matters in the Term Paper for argument shall be entered, and called on and heard, in the order of their date. Rules Nisi for New Trials will be classed under this Rule. All other Rules to show cause (unless the Court shall otherwise order) will be entered for and heard on some Tuesday or Friday only.

PART II.

Statistics of New South Wales for 1874.

PART I.—POPULATION, VITAL STATISTICS, IMMIGRATION.

POPULATION.—The population of the Colony, which was estimated to amount to 560,275 persons on 31st December, 1873, had increased at the same time of the year 1874 to 584,278, which shows an addition of 24,003, or 4·28 per cent. The estimated number of the sexes is 321,447 males and 262,831 females. There were, therefore, 58,616 more males than females; and their respective proportions per 1,000 will be 550 to 450. The increment of 24,003 persons to our population is arrived at by the fact that there were 13,526 births over deaths, and that the arrivals by sea exceeded the departures by 10,477. By referring to the Statistics of the Colony of Victoria it is found that, with a population of more than 220,000 in excess of New South Wales, the increase in population amounted to 17,945 persons, which is 6,058 under the figures of this Colony. The inference to be drawn from these figures is that since the Census of 1871 there must have been an overland exodus of population from Victoria to New South Wales, and consequently that our population is probably larger than estimated.

DECENNIAL RETURN OF THE POPULATION OF THE COLONY.

Year.	Estimated Population on 31st December.			Year.	Estimated Population on 31st December.

MARRIAGES, BIRTHS, DEATHS.—The number of Marriages celebrated during the year was 4,343. As compared with the previous year, Marriages had decreased by 41. If population be taken into account, it will be seen that Marriages show an almost yearly decrease since the year 1865, when they stood at 8·90 per 1,000 as against 7·61 for the year under report. Comparing the number of Marriages celebrated by the various religious denominations in the year 1874 with 1873, it will be seen that there is an increase under the heads Church of England, Wesleyan, Congregational, Baptist, German Evangelical, and Registrars' Offices; Roman Catholic shows a large decrease, and the number of Presbyterian Marriages is less.

Out of 886 Presbyterian Marriages 362 were celebrated by one minister belonging to that denomination. The Births registered during the year amounted to 22,178, being 734 in excess of the year 1873. The ratio of Births per 1,000 is 38·87, which is a slight decrease on the previous year. The number of Deaths recorded in the year was 8,652, being an increase of 1,041 on 1873, and the rate of 15·16 per 1,000 of population, showing an increase of 1·31 on the mortality of the previous year.

IMMIGRATION.—The total number of Immigrants who arrived from the United Kingdom during the year 1874 was 1,685; of this number, 1,080 were free immigrants, and 605 were arrivals at their own expense. Of the former class there were 838 adults, viz.:—427 males and 411 females, and 242 children. Their nationality was as follows:—England and Wales 533, Ireland 433, Scotland 108, and other countries 6. Of the latter class, males numbered 342, females 218, and children 45.

LUNATIC AND INVALID ESTABLISHMENTS.—The Hospital for the Insane, at Gladesville, shows the total number of inmates on 31st December, 1873, to be 561. The admissions were 312, making a total number of patients under care to be 873. Deducting the number, discharged, died, &c., which was 322, we have 551 patients left on 31st December, 1874, viz., 304 males and 247 females. The average number of residents for the year 1874 is 581. The cost of maintenance was £15,910, which was provided from public moneys, and is an increase on the previous year of £1,610. The Asylum at Parramatta, for free Lunatics, commenced the year with a total of 746 patients, comprising 538 males and 208 females. There were 48 admissions during the year. The number discharged, died, &c., was 69, which left 725 in the establishment at the close of the year. The Convict Lunatic Asylum shows that there were 39 inmates, of whom 5 died, and there were no admissions, so that the number at the end of the year was 34. The amount expended on these two establishments was £16,327, received from the public purse. This expenditure is £740 in excess of the previous year. The Asylum for Imbeciles and Idiots at Newcastle supported 132 patients, and there were 44 fresh cases during the year, bringing up the number of patients under treatment to 176. Two discharges took place, and there were 10 deaths, leaving 164 in the institution at the end of the year. The sum of £4,041 was expended in maintenance, derived from the public Revenue, and a further sum of £2,328 was paid to the Bay View House Lunatic Asylum, for the support of patients from Government Institutions. The total cost to the Colony of Lunatic and Invalid Establishments came to £39,558.

CHARITABLE INSTITUTIONS.—Among the most numerous of these institutions are the Hospitals of the Colony, of which there are 42; from all but one the usual returns have been received. The two Metropolitan hospitals, viz., the Sydney Infirmary and St. Vincent's, furnish the following particulars. In the first-named institution there were 227 patients on 31st December, 1873. The admissions during the year were 2,295, the discharges 2,022, and the deaths 310; the number left on 31st December, 1874, being 190. Out-door relief was afforded to 6,013 persons. The receipts for the year amounted to £13,153, of which the Government provided £9,745, and voluntary contributions £3,403. The disbursements show £11,845. St.

Vincent's Hospital is supported entirely by voluntary aid, which came to £1,216, the disbursements being £1,278. The number of patients admitted during the year was 322; 289 were discharged, and 26 died. There were 30 inmates at the commencement of the year, and 37 remained at its close. There were 1,377 persons who received out-door relief. The total number of persons admitted into the various hospitals of the Colony during the year was 5,263, the discharges were 4,668, and the deaths, 647. The total number of persons who received out-door relief was 7,921. The total receipts of our hospitals amounted to £35,065, viz., from Government, £19,290, from voluntary aid, £15,775. The sum of £33,383 was actually expended. The three Benevolent Asylums, wholly supported at Government expense, show the number of inmates at the end of the year 1873 to be 1,075, and there were 1,351 admitted during the year 1874. The number discharged was 1,065, and death took away 261. There were then 1,110 remaining in these establishments at the end of the year 1874. The cost of maintenance was £16,042. The remaining Benevolent Institutions which appear in the return were supported in part by Government and voluntary aid; the former to the amount of £4,039, and the latter £2,094. Two Benevolent Societies afforded relief to the extent of £824, of which sum £100 was provided from public money. The receipts from Government in support of Orphan and Industrial Schools amounted during the year to £22,699, and this sum was augmented by voluntary contributions (£6,869) to £29,568. In addition to the foregoing institutions, there were six others of a similar description wholly supported by voluntary contributions, at a cost of £5,540. The general total amount received by the various Charitable Institutions of the Colony was £182,831, of which £101,729 came from the public purse and £81,102 are the proceeds of voluntary aid.

WAGES.—On comparing the rates of wages obtained in the year 1874 with the previous year it will be seen that there is very little variation. The following table gives the average wages for the year 1874 paid to the principal trades and to domestic servants.

PART II.—RELIGION, EDUCATION, AND CRIME.

ECCLIASTICAL CHURCHES AND CHAPELS.—The number of Ministers of Religion who were on the roll authorized to celebrate Marriages in the Colony in the year 1874 was 580, being an increase of 84 on the previous year. They were distributed as follows:—Church of England, 187; Roman Catholic, 143; Wesleyan Methodist, 84; Presbyterian, 78; Congregational, 34; Primitive Methodist, 18; Baptist, 13; Particular Baptist, 6; Jews, 5; United Methodist, 4; United Free Gospel, 1; Independent Methodist, 1; Protestant Episcopal, 1; German Evangelical, 1; Independent, 1; Evangelical Lutheran, 1; Christian Israelite, 1; Unitarian, 1. The amounts expended as Salaries and Allowances, and Receipts from Church and School Estates, were as follows:—Church of England, £13,615; Roman Catholic, £3,218; Presbyterian, £1,968; Wesleyan Methodist, £1,597; in all a total of £25,398, being an increase of £1,517 on the year 1873, derived from Church and School Estates Fund. The number of Churches or Chapels throughout the Colony belonging to the various denominations was 1,043, which is an addition of 22 to the return for the year 1873. The accommodation in number of individual sittings was 171,497, being an increase of 8,566 sittings. The estimated attendance at all the services on Sunday was 153,921 persons, and 39,343 persons are returned as attending at all other places used for public worship other than those already stated, making a total attendance of 193,264 persons.

SUNDAY SCHOOLS.—The return of Sunday Schools shows a total of 1,037, as against 1,023 in the previous year. The number of Teachers attached to these Schools was 6,679, being 182 in excess of the figures for the year preceding. The children on the registers had increased from 67,586 to 69,800, and the average attendance from 51,474 to 52,084.

EDUCATIONAL.—PRIVATE SCHOOLS.—The return of Private Schools shows a total of 545, in which were 927 teachers and 16,829 scholars. These figures show an excess on the previous year of 23 teachers and 794 scholars.

DAY SCHOOLS.—From the return of the Council of Education it will be seen that Public Schools had increased from 400 to 420, and scholars from 49,006 to 53,702. Provisional Schools also show an increase from 216 to 244, and scholars from 7,548 to 8,002. *Half-time Schools* had advanced in number from 117 to 122, and the scholars from 2,237 to 2,462. The total increase then of these classes of schools was 53, and the number of scholars exceeded those of the year 1873 by 5,375. The amount received as voluntary contributions, fees, &c., towards the maintenance of these schools during the year 1874 was £42,805, which sum includes £6,709 as local contributions on account of buildings.

DENOMINATIONAL SCHOOLS.—The number of Denominational Schools had decreased from 209 to 204, but the number of scholars had increased from 33,512 to 36,218, showing a difference in favour of the year 1874, of 2,706 scholars. Voluntary contributions, fees, &c., amounted to £17,440. The total number of all classes of schools under the Council of Education was 990, being an addition of 48 to the figures of 1873, and the number of scholars was 100,384, which is an increase of 8,081. The amount paid by Government from the Treasury during the year 1874, was £121,600, which

includes £1,600 from the Clergy and School Estates Revenue Fund, and £80,245 was received as fees, voluntary contributions, &c., making the total sum expended on these schools in the year 1874 to amount to £181,845.

The number of students at the University was 46, St. Paul's College 12, St. John's 5, St. Andrew's 6, and the Sydney Grammar School, 316, in all 385. The amount received by these seminaries from the Colonial Treasury during the year was £11,584 and from other sources £13,318, making a total of £24,902. The general total sum expended in the Colony exclusively for purpose of Education was £206,747, viz., £133,184 from the Treasury and £73,563 from other sources. These amounts do not include the cost of education afforded to children in Orphan and Industrial Schools. The general total number of scholars for the year 1874 was 119,133, which is an increase of 8,846 on the year 1873. When the Census was last taken, in 1871, it was found that about one fourth of the population was of the educable age, viz., between five and fifteen years. Taking the same proportion of the estimated population on 30th June, 1874, it will be found that about 83 per cent. of the children of the Colony were receiving instruction.

CRIME.—The returns of the Supreme and Circuit Courts show that there were 382 cases sent for trial. Of this number, 270 were felonies, 208 of which went to trial, which resulted in 127 convictions and 81 acquittals. Out of 112 misdemeanors, 85 were committals, 65 convictions, and 20 acquittals. Taking both classes of offences, it will be seen that out of 293 cases tried, 192 were convictions and 101 acquittals. The Quarter Sessions cases for the year were as follows:—Committals, 929; trials, 751; convictions, 508; acquittals, 243. Taking the Supreme Court and Quarter Sessions cases together, there were 1,044 trials, 700, or 67.05 per cent., being convictions, and 344, or 32.95 per cent., acquittals. The number of prisoners (exclusive of coloured prisoners) confined in the gaols of the Colony at Michaelmas, 1874, was 1,284, viz., 1,078 males and 206 females.

The "Summary Jurisdiction" Returns show that the number of cases brought before the magistrates during the year was 21,924, of which 12,778, or 58·28 per cent., are under the column for drunkenness. For this offence there were 9,713, or 76·01 per cent., convictions, and 3,065, or 23·99 per cent., discharges. Out of the total number of cases, 70·57 per cent. were convictions, 4·98 per cent. committals, and 24·45 per cent. discharges. Referring to the educational status of prisoners, it will be seen that the percentage of those who were able to read and write is 79·48; those who could read only, 5·41; and those who could not read or write, 15·11.

PART III.—TRADE AND COMMERCE.

IMPORTS.—The imports for the year were valued at £11,293,739; of this sum imports seaward were £10,836,920, and overland £456,819. The rate per head of population, estimated at the middle of the year, is £19 15s. 11½d. The value of imports from the *United Kingdom* was £4,888,725, showing a deficiency of £248,414 on the previous year. The value of imports from the *Colony of Victoria* are shown to be £1,349,062, of which overland traffic contributed £452,086, and seaward £896,976. The figures for *South Australia* show a value of £574,421. *Queensland* imports were £2,215,308, which is in excess of the previous year by £348,052. The total imports from the three neighbouring Colonies came to £4,141,791. Imports from other British Colonies amounted in value to £1,281,469. The total value of imports from all British Colonies came to £5,423,260. From *Foreign States* the value of imports amounted to £981,754.

EXPORTS.—The general total value of the exports of the Colony for the year 1874, amounted to £12,345,608, which shows a rate of £21 12s. 9½d per head of estimated population at the middle of the year. Exports to the *United Kingdom* were valued at £5,737,066, being in excess of imports by £848,341. Our exports to *Victoria* seaward came to £801,979, and overland to £2,812,477,—in all £3,614,456, which figures are in excess of imports by £2,265,394. The great bulk of our overland exports to *Victoria* consisted of wool and live stock, the former to the value of £2,199,972, and the latter £557,295. The value then of New South Wales wool exported by way of Melbourne increases the total of Victorian exports by the sum just mentioned. With *South Australia* the Export trade amounted to £657,768, that by Sea was valued at £157,724, and overland £500,044. Here again is found an excess of £83,347 on the side of Exports. The sum of £390,226 represents the value of Wool, and £99,002 of Live Stock exported to *South Australia*. Exports to *Queensland* show a total value of £1,085,965, which is less than the value of Imports from that Colony by £1,132,343. The value of Exports to *Foreign States* was £510,314, being £84,491 in excess of the figures for 1873, and £471,440 less than the value of Imports from these States.

SHIPPING INWARDS.—The Shipping Returns for the year 1874 show that 2,217 vessels entered the ports of the Colony, with an aggregate of 1,016,369 tons. As compared with the previous year, we find an increase of 56 in number and of 141,565 in tonnage. From British Possessions there was an increase of 56,249 tons, and from Great Britain of 67,983 tons. There was

also an excess in American ships of 11,405 tons. The number and tonnage of vessels entering the ports of the Colony during the year will be seen as follows :—

From these figures it will be seen that so far as the number and tonnage of vessels are concerned Newcastle is the chief port of the Colony. The increase on the year 1873 in the tonnage of vessels entering Port Jackson was 25,123 tons, and the numbers for Newcastle are in excess by 121,170 tons.

SHIPPING OUTWARDS.—The number of vessels leaving the various ports of the Colony during the year was 2,168, of an aggregate of 974,525 tons. The return of the previous year shows a decrease for the year 1874 in the number of vessels, and an increase of 86,851 tons. The following table gives the number and tonnage of vessels leaving the several ports of the Colony :—

	No.	Tonnage.
Sydney	825	422,693
Newcastle	1,269	543,693
Grafton	26	3,184
Richmond River	33	4,214
Tweed River	15	741
	<hr/> 2,168	<hr/> 974,525

This table also shows an excess over Port Jackson in the number and tonnage of vessels leaving Newcastle of 444 and 121,000 respectively. The increase on the year 1873 in number and tonnage leaving Port Jackson was 9 and 55,342 respectively, and the figures for Newcastle are 10 and 45,225 respectively.

VESSELS BUILT AND REGISTERED.—During the year 1874 there were 52 vessels of various descriptions built in the Colony, of an aggregate of 3,413 tons. Comparing these figures with the previous year, we find an increase of 9 vessels and 1,232 tons. The Decennial Table shows that during the period there have been 334 vessels built in the Colony, representing 22,143 tons. The number of vessels registered in the year was 92, of an aggregate of 12,876 tons. These figures are a shade lower than those for the previous year.

PART IV.—MILLS AND MANUFACTURES.

GRAIN AND FLOUR MILLS.—The return of the number of Mills for grinding and dressing grain in the Colony during the year 1874 gives 172 as

the total, being a decrease of 10 on the previous year. The motive-power used in these Mills was as follows:—142 steam, 12 water, 5 wind, and 13 horse-power. The greatest number are in the Metropolitan District, where there are 16, Bathurst 10, Goulburn 8, Mudgee 6, Albury 6, Patrick's Plains 5, Windsor 4, Dungog 4, Tamworth, 4, Armidale 4.

MANUFACTORIES, WORKS, &c.—The number of Manufactories in the Colony was 612, of which 209 were connected with or dependent on Agriculture, 41 used for working on raw materials the production of the Pastoral Interest, 142 were engaged in the manufacture of Food of which the raw material is not the produce of Agriculture, and of articles of Drink, 21 Buildings and Plastic Manufactories, and 199 Miscellaneous Manufactories. There were also 8,629 various kinds of Machines in use throughout the Colony. The number of *Woollen Manufactories* in work during the year was 8; and the material produced in the shape of Cloth and Tweeds amounted to 458 880 yards, which shows an addition of 187,810 yards on the return for the previous year. *Soap and Candle Manufactories* numbered 31, which produced 82,270 cwt. of Soap, and 11,724 cwt. of Candles; the quantity of the former being 13,030 cwt., and of the latter 5,716 cwt. less than the previous year. The produce of the *Tobacco Manufactories* for the year amounted to 14,980 cwt., the work of 23 establishments, of which 7 are returned as situate in the Metropolitan District, and produced 13,419 cwt. of the total. There is an increase of 3,441 cwt. on the previous year in the manufacture of this article. The number of *Sugar Manufactories* in the Colony was 67, of which number 67 were employed during the year. The quantity of Sugar produced was 137,104 cwt., or about 6,855 tons; and of Molasses 423,564 gallons. No returns could be obtained from three large Sugar-Mills of the quantity of Cane Crushed, though the weight is given of Sugar produced. It is found from the agricultural returns that the weight of Cane grown in the Colony during the year 1874 was 14,637,979 cwt., or about 731,897 tons. There were also 6 *Sugar Refineries* in work, which turned out 315,995 cwt. of Sugar, being an increase of 135,626 cwt. on the previous year. *Boiling-down Establishments* numbered 33, as against 39 in the year 1873. The number of Sheep slaughtered was 24,995, and of Cattle 7,744; the former being 58,307, and the latter 2,613 under the figures for 1873. The quantity of Tallow produced was 73,817 cwt., of which 64,991 cwt. was the produce from refuse of butchers' shops in the Metropolitan District.

PART V.—PRODUCTION.

GOLD—The total quantity of Gold received by Escort from the several Gold Fields of the Colony during the year 1874, as assayed by the Mint, was 243,518 ounces, which is less by 84,679 ounces than the figures for the previous year. The total value was estimated at £934,398. The *Western Gold Fields*, as usual, contributed the largest quantity, viz., 192,066 ounces, of the value of £737,718. The localities in this Gold Field which contributed the greatest shares of the precious metal were—Mudgee and Gulgong, Grenfell and Parkes, Tambaroora and Bathurst. The value of the Gold per ounce ranged from £3 5s. 11d. to £3 19 3d. The quantity

furnished by the *Southern Gold Fields* was £42,881 ounces, worth £164,275. The districts of Adelong and Braidwood appear to be the largest producers in this Gold Field. The price ranged from £3 6s. 11d. to £3 18s. 6d. per ounce. *The Gold Fields in the North* supplied 8,570. The price of gold was from £3 15s. 2d. to £3 17s. 6d.

COAL MINES.—The Return of Coal Mines shows that there were thirty Collieries in work during the year 1874, which produced 1,304,567 tons of Coal, valued at £790,224, which gives an average of about 12s. per ton. Comparing the quantity and value of Coal raised with that of 1873, we find that there was an increase of 111,706 tons, and £124,478 respectively, and that the average price per ton was 10d. higher. The largest quantity of Coal raised from any one mine was from the "Newcastle Wallsend," which returns 240,000 tons; next comes the "Borehole," with 195,494 tons; the "Waratah," with 181,268 tons; the "New Lambton" and "Duckenfield," with 140,115 tons; the "Co-operative," with 140,115 tons; and the "Lambton," with 127,768 tons. The total quantity raised from the Collieries in the Newcastle district amounted to 1,038,042 tons. The production of the "Hartley" Mines had increased from 9,865 tons to 35,200 tons, and the Mines in the Maitland district from 30,570 tons to 72,433 tons. The returns for the Southern Collieries in the Wollongong district show that 137,362 tons were raised, being a small increase on the previous year. The quantity of Coal exported during the year was 872,980 tons, of the value of £632,247. As compared with the year 1873, we find an increase of 99,901 tons. The principal customers for this article of trade are as follows; Victoria, 228,128 tons; United States, 148,614 tons; New Zealand, 132,141 tons; South Australia, 88,801 tons; Hong Kong, 56,724 tons; China, 51,352 tons; Java, 23,872 tons; Singapore, 23,044 tons.

IRON MINES.—The two Iron Mines in the district of Berrima—"Brereton's" and "Fitzroy Company" raised 1,150 tons, the former contributing 1,000 tons.

COPPER MINES.—The quantity of Copper ore raised in the year was 1,647 tons, exclusive of one mine raising 150 tons monthly, in addition to which there were 3,336 tons of Copper produced. The values are not given in the returns.

TIN MINES.—The returns from the various Tin-producing districts show a falling away of 1,001 tons in the year, viz., from 3,060 tons in 1873 to 2,059 tons in 1874.

KEROSENE SHALE MINES.—There were 12,100 tons of Shale raised in the year, as against 17,350 tons in the previous year.

AGRICULTURE.—From the Agricultural Returns it appears that there were 23,310 freeholders of land over an acre in extent, 7,669 leaseholders, and 4,152 free and leaseholders. Freehold tenures then numbered 27,462, showing an increase of 3,210 on the year 1873; and leasehold tenures, which were 10,559 in the year 1873, had increased to 11,821. The total number of acres of freeholds was 8,949,879, being an increase on the previous year of 1,888,379 acres; leaseholds show 3,194,278 acres, being a decrease of 363,754 acres.

The extent of land used for the production of *Wheat* was 166,912 acres, being a slight decrease on the year 1873. There were also 7,992 acres set apart for Hay. The yield for the year 1874 came to 2,148,394 bushels, which is 125,226 bushels short of 1873, and shows an average of close upon 13 bushels to the acre. The Hay crop produced 9,758 tons. *Maize* grown for grain occupied 118,436 acres, and 2,179 acres supplied green food for cattle. The produce of maize amounted to 3,618,436 bushels, being a deficiency on the year of 1873 of over half a million bushels. The average yield is a trifle over 30 bushels to the acre. The area sown with *Barley* came to 6,713 acres, viz.:—3,984 acres for grain, 1,135 acres for hay, and 1,594 acres for green food for cattle. The total area is 77 acres short of 1873. The yield was 69,063 bushels, which gives an average of 10 bushels to the acre, and there were also 1,368 tons of Hay produced. The *Oat* crop for grain covered 17,973 acres, and there were 46,421 acres used for hay, and 2,183 acres for green food. The total area under Oats was 66,578 acres, being a small decrease on the previous year. The yield of Oats was 293,135 bushels, which is an average of nearly 11 bushels to the acre. The Hay crop was 50,414 tons. *Sown Grasses, which includes Lucerne*, show an area of 45,747 acres, of which 38,208 acres were appropriated for green food, and 12,539 acres for hay, the latter being 2,544 acres under, and the former 3,419 acres over the figures of 1873. The quantity of Hay produced was 31,900 tons. The total produce of Hay of all kinds amounted to 93,440 tons, showing a falling away of 16,566 tons on the previous year. *Potatoes* covered 13,604 acres, as against 14,574 acres in the previous year. The yield was 38,564 tons, being less than the figures of 1873 by 4,860 tons. There were 1,756 acres devoted to the growth of *Rye*, and 639 acres for *Tobacco*. The produce of Tobacco came to 679,649 lbs. The number of acres under *Sugar-cane* was 8,540, of which 4,087 are returned as productive and 4,453 unproductive. Comparing these results with the year 1873, it is found that the total increase in area is 1,870 acres, viz., 522 acres productive and 1,348 unproductive. The quantity of Sugar manufactured from the above amounted to 5,855 tons. The culture of the *Vine* occupied 4,308 acres, showing a decrease of 239 acres on the previous year. There were 3,077 acres used for Wine-making, 649 acres for Grapes for table use, and 582 acres were unproductive. The quantity of Wine made was 684,258 gallons, and there were 1,859 gallons of Brandy manufactured. The Grapes

obtained for table use came to 679 tons. *Gardens and Orchards* are represented by 17,572 acres. The total area of land in the Colony under cultivation was 464,957 acres. The importation of Wheat and Flour during the year 1874 amounted in value to £469,847. Of this sum we were customers of South Australia to the amount of £371,926.

LIVE STOCK.—The abstract of Live Stock in the Colony on the 31st March, 1875, shows a large increase in horses, horned cattle, and sheep, as will be seen from the following comparative table.

		Horses.	Horned Cattle.	Sheep.	Pigs.	Total.

The return of Publicans' Licenses issued during the year amounted in the whole to 2,537, being 66 in excess of the figures for the year 1873.

VOLUNTEER CORPS, &c.—The total strength of the Volunteer Force, rank and file, consisting of Artillery, Rifles, and School Cadet Corps, was 4,175 members. There were also six Companies of Naval Brigade, mustering 302 men. The return of the New South Wales Artillery shows a total rank and file of 85 men. The number of Guns in the Colony on 31st December, 1874, was 160, of which 119 were mounted for use.

LAND SALES.—The area of land sold at auction in the year 1874 was 583,266 acres. The average price per acre was, for town land, £17 14s. 5d.; suburban, £2 19s. 8d.; country, £1 0s. 6d. Land *unconditionally sold, by Selection*, amounted to 98,850 acres. Improved lots, sold to owners of improvements, amounted to 20,546 acres. The area of *conditionally sold* land reached 1,586,282 acres. The total amount of these sales realised the sum of £2,322,048. The amounts received were as follows:—Sold at auction, £553,973; unconditionally sold by selection, £100,287; improved lots, £21,802; conditionally sold, £396,570; balances on conditional purchases, £43,643; interest, £63,344; all which sums, with several miscellaneous receipts, make a total of £1,180,344. Balances unpaid on auction sales amounted to £58,980, and on land sold conditionally £1,189,711. The grand total receipts in the year 1874 from all sources were as follows:—

Under Lands Alienation Act	£1,180,344
„ Occupation Act	219,341
„ Gold Fields Act	33,953
„ Miscellaneous	21,044
	<hr/>
	£1,455,182

The facts elicited by a perusal of the returns for the year 1874 show a degree of progress which it is believed are unprecedented in the Statistics of this Colony, and there is every probability that the returns for the current year will show an equal if not greater state of advancement.

BOURKE—

This district embraces the eastern portion of the pastoral district of Albert, the western and southern portions of Warrego, and the northern portion of Wellington. Owing to the absence of mountains in these parts of the interior, the want of rain is frequently felt severely, which renders the district only fit for pastoral purposes; nevertheless, although it was long regarded as in the unknown interior, it is now becoming rapidly populated, and the resources developed to such an extent as to lead to the conclusion that a large and flourishing population will, ere long, find happy homes on the banks of the Darling. This is more likely to be the case now, as within the two last years the district has been discovered to be rich in metals. Copper has been found of a remarkably rich character, and in great abundance, and the quartz reefs, which are visible in many parts of the district, have been found to contain gold. Population—1,092 males, 416 females, total, 1,508. Public houses, 19. This district is partly in the electoral district of the Bogan, and partly in Balranald.

Places of Petty Sessions—Bourke, Brewarrina, Eringunna, and Gongolgon.

PARKES.

Parkes, the chief town on the Billabong gold-field, which is situated in the north-western portion of the county of Ashburnham, lies in the basin of the Lachlan River, and is built upon the Goobang Creek. It is at present the most productive gold-field in New South Wales, and is also a first class agricultural district, producing fruits and cereals in the highest degree of perfection. Parkes is surrounded by thriving villages, of which the Tichborne Lead, McGuigan's and the London are the most populous. The population of Parkes and within a circuit of 7 miles, may be estimated at 5,000 souls. The country to the northward is being rapidly occupied by conditional purchasers. There are 40 public-houses on the gold-field, and a large number of stores and wholesale establishments. The Hospital, Public School and Masonic Hall, handsome brick buildings built on elevated and picturesque sites, over-looking the town, add considerably to its appearance. A commodious Court House and Warden's office has also been erected.

GRAFTON—

This district lies in the lower valley of the Clarence River, and extends inland from the coast about fifty miles, covering the 30 par. of S. lat., and between the point opposite the Solitary Islands and the range dividing the waters of the Clarence and Richmond Rivers. Besides being a fine pastoral country, it is admirably adapted for agricultural pursuits and the cultivation of some of the staple productions of tropical climates, and is also rich in minerals. About 2,000 ozs. gold were produced in 1871. Tin has recently been discovered about the southern heads of the Clarence waters. A coal-field has been opened near Maclean, and a payable gold-field discovered in the direction of Woombah. The yearly trade of the district requires over 100 voyages by steam vessels to Sydney, and 89 sailing vessels and steamers to and from Melbourne and neighbouring colonies; and 9 steamers on the river used as passage boats. The Colonial Sugar Company has mills at Southgate, Chatsworth Island and Harwood Island, and at the latter place there is an extensive distillery. The climate is perhaps the most humid in New South Wales. Population—4,986 males, 3,979 females; total, 8,965. Public-houses, 34. This district, with the Richmond River and Tweed River, forms the Clarence electorate. Population—7,511 males, 5,949 females; total, 13,760, of whom 3,747 are males over 21. Registered voters, 4,399. ORANGE—

Embraces the southern portion of the county of Wellington, and the north-western portion of the county of Bathurst. This district, at one time of little note, has risen to great importance by its inexhaustible mineral resources, both gold, and copper. Its adaptation for agriculture has induced a great number of small tenant farmers to become conditional purchasers of its soil, which has now become celebrated for its wheat producing qualities. Population—4,208 males, 3,378 females; total, 7,586. Public-houses, 39. This district is identical with the electorate of Orange. Population—4,208 males, 3,378 females, total, 7,586, of whom 2,065 are males over 21 years. Registered voters 2,090. Member—Harris L. Nelson.

PORT MACQUARIE.

Is situated on the south side of the River Hastings, 240 miles north of Sydney. Mrs. Young's mill is still here, but there is no prospect of working it again. The cane around it has been dug up and maize planted or being planted. There are five small mills still in the district belonging to Messrs Peter Muscio, George Garrett, Joseph Laws, James Haik, and Thomas Cummings; but except on a small scale the growth of sugar cane in this district is at an end, the frosts causing it to suffer so severely, that the farmers find it more profitable to grow maize. A contract has been taken to run a mail once a week from the Ellenborough to Walcha, New England. Wool has for years been brought down by drays from stations in New England and this line neglected, although passing through some rich and suitable for the agriculturist.

TWEED RIVER—

Embraces the north-eastern portion of the pastoral district of the Clarence. It was, until recently, only known as a timber producing district, from which Sydney obtains large supplies of building materials. In the year 1886 free selectors began to take up the land, and in the course of three years afterwards all good land on navigable water was free selected; at the present time there are about 28,000 acres alienated by conditional purchase. The district is admirably adapted for the cultivation of the sugar cane. Good judges say that its rich river flats and splendid climate place it amongst the most desirable spots on the eastern coast for the cultivation of the sugar cane. Owing to the very low price of maize there will not be more than 300 acres planted with that crop this year: all who have the means are planting the sugar cane. The farmers generally are planting sugar cane this year. Messrs. Pringle and Shankey has erected a steam sugar mill which turns out 10 tons of sugar per week; they crush the cane for the farmers, and give the farmers half the sugar. There is a small sugar mill, which does not crush for the public. Population last census—277 males, 172 females; total, 449. This district forms part of the Electorate of the Clarence. (See Grafton.)

AUSTRALASIAN COLONIES.

ARRANGED ACCORDING TO SENIORITY.

New South Wales.*For full information see previous part of work.***Tasmania.**

The island of Tasmania lies between 14° 29' and 48° 40' S. lat. and 144° 40' and 148° 20' E. long. and contains 15,382,000 acres of land.

The first discovery was by the Dutch Navigator, Abel Jansen Tasman, on the 1st December, 1642, who gave it the name of Van Dieman's Land, in honour of the Governor of the East Indies; but the name of Tasmania, in honour of the discoverer, is officially used. Captain Cook visited the Island on the 25th of January, 1777. Captain Flinders made the discovery in 1799 that Tasmania was an island, and called the straits separating it from Victoria after his adventurous companion, Dr. Bass. It was in 1804, under Colonel Collins, that the first settlement on its shores was formed. The physical aspect of the country is mountainous. It abounds in rivers and lakes, three of the former being navigable for vessels for 40 miles. On the principal one, the Derwent, the capital is situated. Many of the mountains are of a great height, that of the Cradle Mountain is 5689 feet above the level of the sea; and Valentine's Peak, 3637 feet, is visible at a distance of 60 miles. The capital is Hobart Town, and the other principal towns are Launceston, New Norfolk, Westbury, Deloraine, Campbelltown, Ross, Kempton, and Richmond.

South Australia.

The boundaries of this colony are fixed between 139° and 141° E. long. for the eastern and western boundaries; the 28° of S. lat. for the northern, and on the south by the Southern Ocean. The coast line extends 1600 miles, embracing an area of about 300,000 square miles. It was founded on the Wakefield principle, and for some time seemed to disappoint the expectations of its projectors. It has, however, after passing through many vicissitudes, attained an important position among the Australian colonies. Captain Hindmarsh, the first Governor, arrived at the close of 1836, and the colony was proclaimed on the 28th December of that year. He was succeeded by Colonel Gawler, who arrived on the 19th October, 1838. Since it was founded, it has steadily progressed in population, value, and importance to the present time, while the navigation of the Murray and the Darling (New South Wales) tends still further to advance the prosperity. The capital of South Australia is Adelaide, and the other principal towns are—Gawler Town, Kapunda, Koorunga, Kagina, Moonta, Wallaroo.

Queensland.

This colony, which is the youngest of the Australian Colonies, comprises the north eastern portion of the continent of Australia. Its southern boundary, commencing at Point Danger in latitude 28° 8' S., follows a somewhat winding course to a point on the 39th parallel, where the McIntyre River intersects it; thence along the parallel to the 141st meridian, the eastern boundary of South Australia, and thence to the 138th degree of longitude, which forms the western boundary to the Gulf of Carpentaria. On the north it is bounded by Torres' Straits, and on the east by the Pacific Ocean. The area of the colony is 671,500 square miles. This colony formed a portion of New South Wales until the year 1860, and was known as the Moreton Bay District. It was proclaimed a separate colony on the 3rd June, 1859; and Sir George Ferguson Bowen appointed its first Governor. In November, 1860, Sir George Bowen arrived at Brisbane, and the separation of the colony from New South Wales was formally proclaimed, on the 1st December, in New South Wales, and on the 10th of the same month at Brisbane. The capital of Queensland is Brisbane; population, with suburbs, 14,865; and the other principal towns are Ipswich, with suburbs, 5021; Toowoomba, 2000; Warwick, 1728; Maryborough, 2029; Rockhampton, 5226; Dalby, 1214; Bowen, 1144; Drayton, 807; and Gayndah, 746.

THE AUSTRALIAN WITNESS.

A WEEKLY JOURNAL,

Published under the Auspices of the Presbyterian Church of
New South Wales, and devoted to the extension of
Christ's Kingdom and the welfare of Society.

THE AUSTRALIAN WITNESS is now in the Fourth Year of its publication, and still maintains its reputation as a highly useful, religious family paper, in disseminating sound Protestant principles and Scriptural truths.

THE AUSTRALIAN WITNESS will always contain full accounts of Proceedings of the Presbyterian Church of this Colony, and latest intelligence of the other *Colonial, Home, and Foreign Churches*; also, original articles on the principal religious, social, and political questions of the day, and choice selections from the best British and American periodicals.

THE AUSTRALIAN WITNESS is published every Friday Afternoon for Saturdays. The subscription is 12s. per year in advance, 13s. if booked; and is posted free to all parts of New South Wales and the adjacent colonies.
